FULLY CUSTOMIZABLE
TO SUIT YOUR NEEDS

The Deep Blue Marine Products FT96 "Tournament Table" is designed to make a statement at your location. Designed to simulate the upper station of a luxury yacht the FT96 is constructed of bright dipped anodized aluminum pipe and marine-grade high density poly. Notice the curved pipe and full width Sunbrella canvas top for a decidedly nautical look. The FDA approved poly cutting surface will not rot or crack, will never retain fish odors, and is far more sanitary than wood surfaces. The twin side stations include hose holders, (2) cup holders, Accusharp knife sharpeners, and pliers slots. Under the top is low voltage lighting and optional (3) head misting system for those hot summer days and nights. Full customization is available for any application. Call for a quote on your table size and options. See www.deepbluemarine.com for more information.
